# TECHOLED

Leading lighting manufacturer, based in Brooklyn, NY. We specialize in delivering complex, functional, high-end architectural luminaires. Innovation is at the forefront of our product line, which is constantly being expanded to meet the ever-evolving needs of our customers.

# THE METHOD

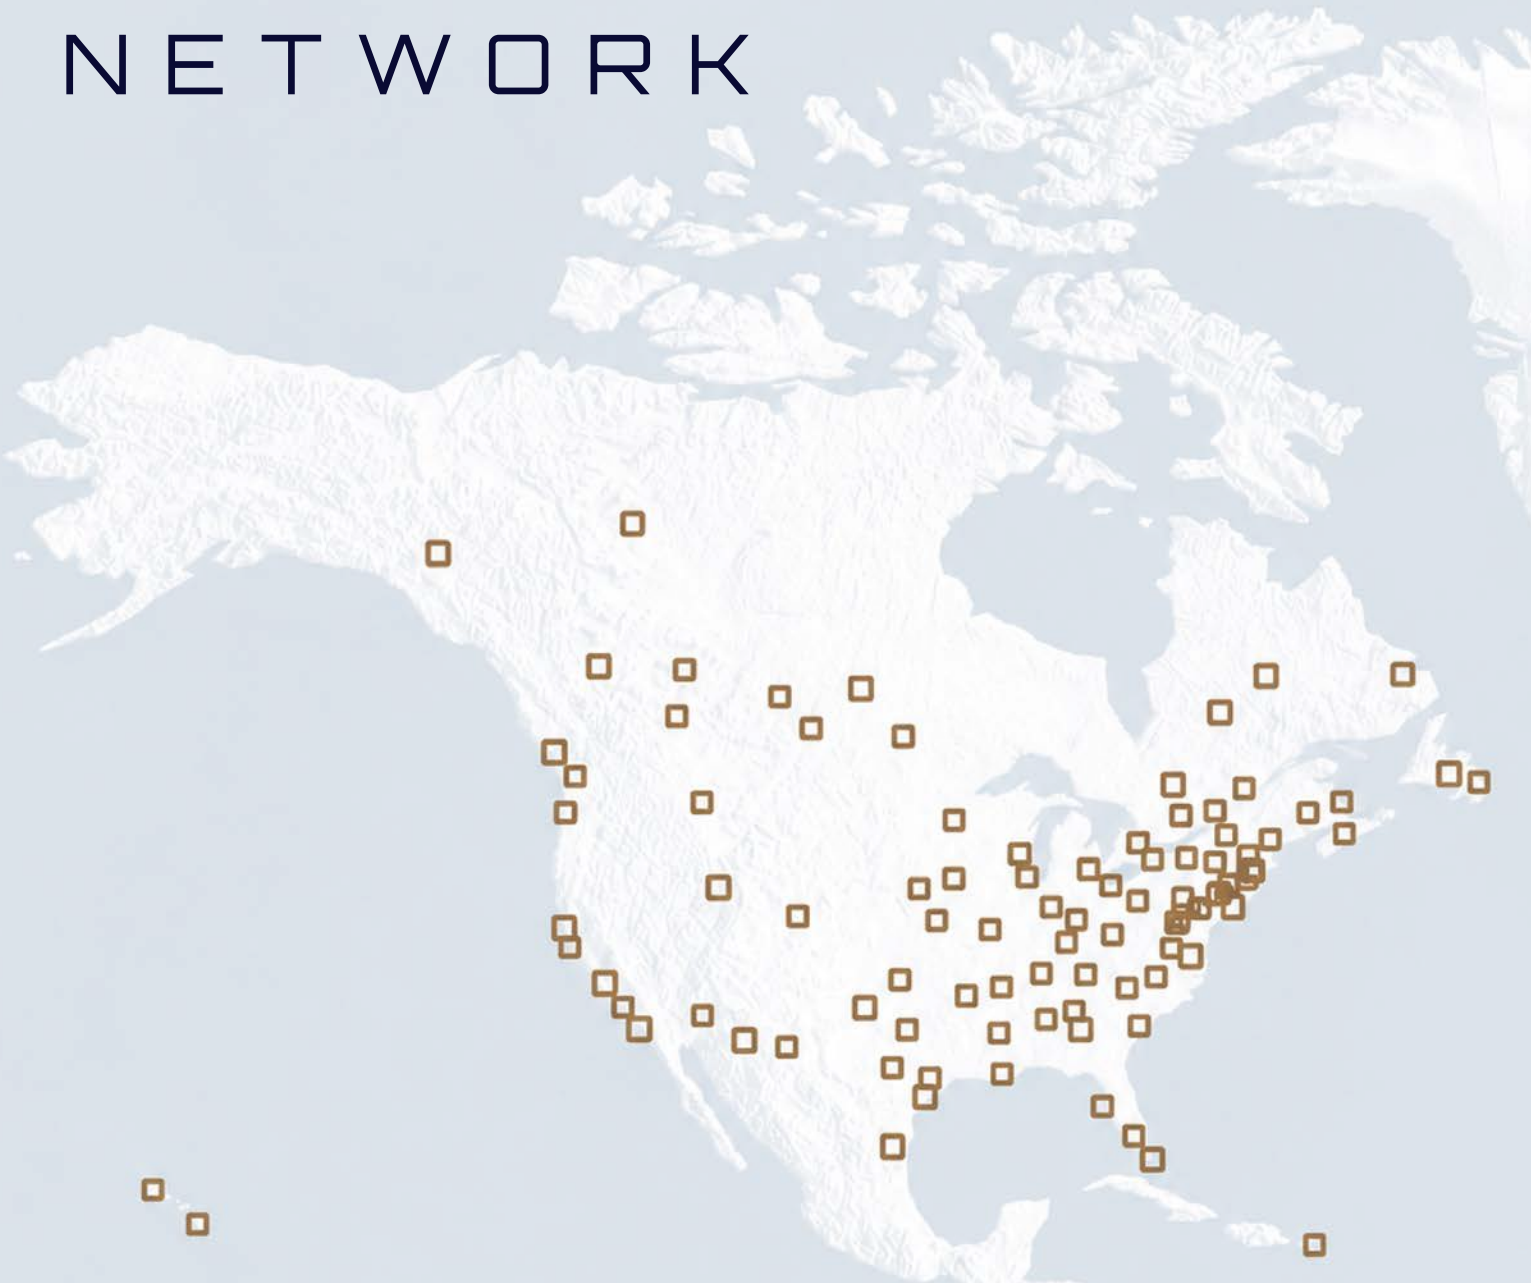

We work closely with the design community throughout the specification process, from 'sketch on a napkin', shop drawings, mock-ups, photometric calculations, to complete delivery, installation, and after-market support.

# SUPPORT

Our products are designed with contractors in mind. We're hands on, whether coordinating specifications prior to manufacturing or job site visits, we're always there to help.

## 02 LINEAR

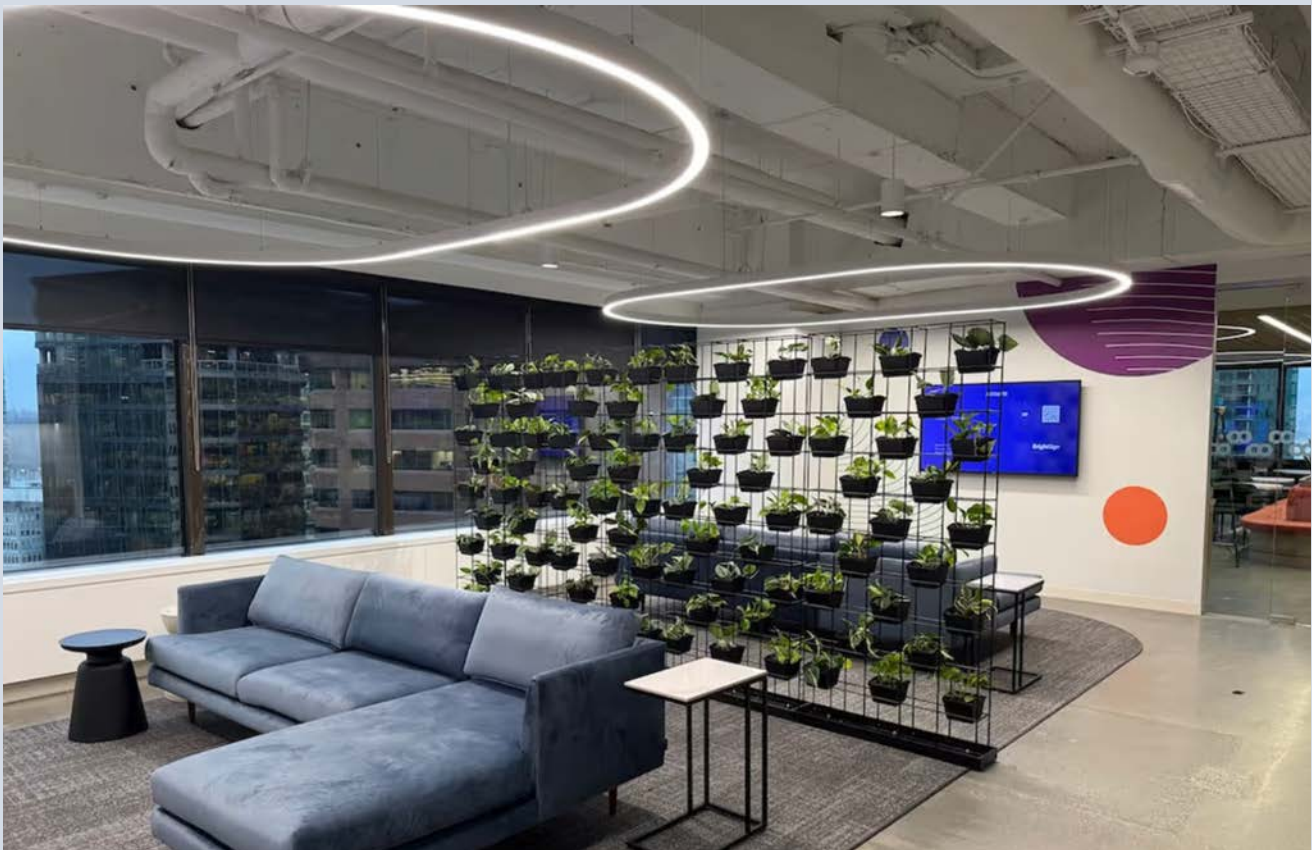

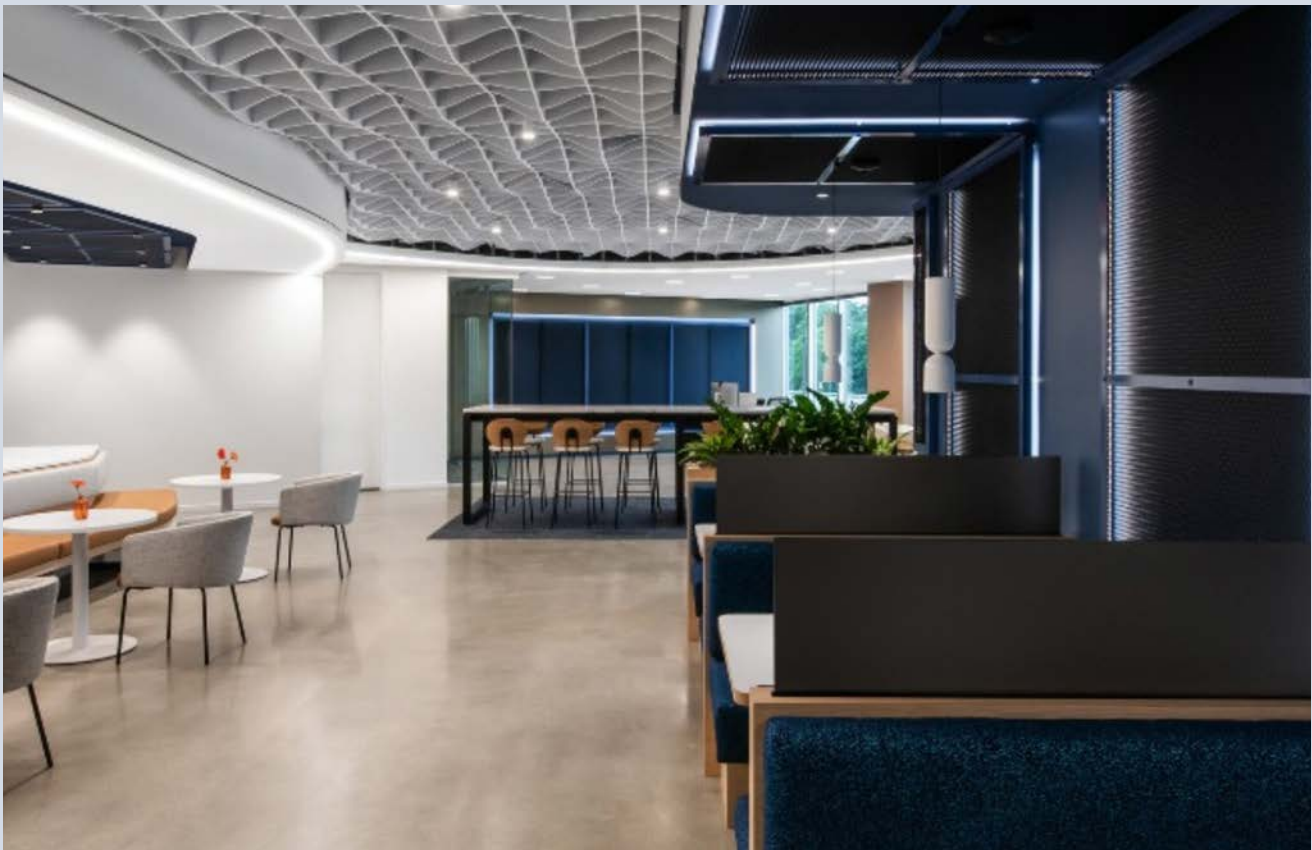

TechoLED has a comprehensive portfolio of specification grade **linear products**. Sizes starting at just  $\frac{3}{4}$  of an inch and wide variety of form factors, such as louvres, spotlights and direct/indirect illumination. With almost unlimited options to create patterns, rectangles, continuous linear runs, custom lumen packages, finishes and more.

# Ø3 FLEX SERIES

**Flex Series** is smooth, seamless rope of light, without any visible diodes or dark spots. With ability to effortlessly rotate and weave in space, you can create unprecedented light creations. Available in either pliable or non-pliable versions, indoor and outdoor (IP67) with wide variety of mounting hardware and accessories.

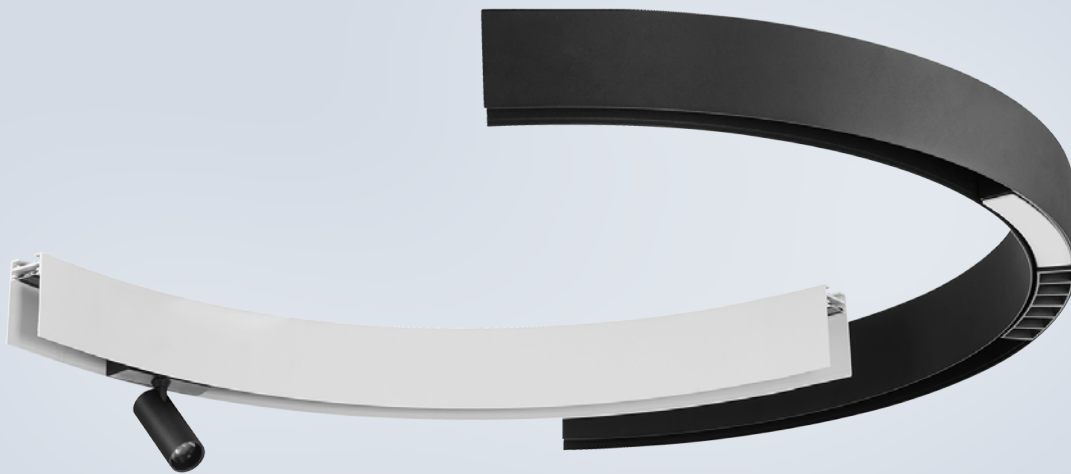

# 04 MAGNETIC TRACK

TechoLED **Magnetic Track** is creative and flexible architectural solution. Recessed, surface mount, and pendant tracks are made from high grade aluminum extrusions and have full ability to do curves and circles – with the track as well as the light modules. The modules, ranging from solid linear, louvre, wall washer, adjustable spotlights and decorative pendants, snap in the track magnetically and can be repositioned by hand, without tools. Great for interior retail, hospitality, office, and residential applications.

# 06 ACOUSTIC

The TechoLED **Acoustic Series** provides an elegant and effective solution for reducing noise and reverberation in large, open spaces. Available in **acoustic and non-acoustic** configurations, our luminaires are crafted from high-quality, rigid, acoustically rated materials, ensuring an easy-to-specify and easy-to-install integrated solution. With a wide range of sizes, form factors, and finishes, from standard colors to faux wood, we offer solutions to complement every modern interior.

# MOON

The TechoLED **Moon series** features smooth, round LED luminaires made with high-end aluminum extrusion and a PMMA diffuser. With diameters ranging from 11.8" to 47.2" (or a custom size of your choice), direct and direct/indirect illumination, and surface-mounted or pendant installation, it offers a simple yet sleek lighting solution for any modern interior.

## BROOKLYN ROOTS

From concept to completion, our U.S. and international teams operate as one coordinated unit, bridging together design, engineering and manufacturing expertise across continents. By combining local support with world-class production capabilities, we ensure every project is delivered with precision, consistency, and fast, reliable support.

## GLOBAL CLIENTS

With headquarters in Brooklyn, NY and operations in Connecticut, Guangzhou, London, Hong Kong, and Prague, we support leading global clients across multiple continents. Our teams deliver projects anywhere in the world with local compliance, engineered precision, and hands-on support.

## COMMUNITY SUPPORT

TechoLED actively supports local community initiatives across the New York metropolitan area. As part of that commitment, we proudly sponsor youth sports programs such as the SI Hurricanes Organization (SHO) and the Big Tri State Youth Football League, investing in the development of young athletes and the communities they represent.
